## September 11, 2020 Virtual Meeting

### Premises Liability in the Midst of a COVID-19 Pandemic

**Margaret Hackbarth**  
Of Counsel  
[www.lippes.com](http://www.lippes.com)

Premises Liability in the midst of a COVID-19 Pandemic. In this presentation, we will review the basics of premises liability including the relevant parties, the duty that a property owner generally owes to visitors and others and the types of accidents and cases involving premises liability. Given the current health crisis and the fact that business and property owners are reopening in the midst of the COVID-19 pandemic, we will focus particularly on matters that might arise in relation to COVID-19.

Ms. Hackbarth has both in-house and law firm experience in commercial transactions, real estate, construction, insurance, claims, vendor compliance and litigation. Her experience includes private practice in construction litigation (trials, arbitrations and mediations) and real estate transactions, insurance program placement and management in construction, development, property management and hospitality, general counsel and vice president of risk management for a construction company and division counsel to a publicly-traded residential developer.

She serves on the Leadership Academy Steering Committee for the Association of Corporate Counsel. Ms. Hackbarth has recently served as a lecturer on Indemnity and Insurance Clauses for the 2019 CLM Annual Meeting and a 2019 Cyber Liability Panelist for the ACC webinar series. She also frequently delivers training sessions for clients and in-house associates on worker's compensation, safety/OSHA, construction contracts, mechanic's liens, surety bonds, insurance matters and risk management. Margaret also holds property and casualty brokers licenses in Virginia and a number of other jurisdictions

## Society News

**Fourteenth annual anniversary observance of NATIONAL DRUG-FREE WORK WEEK, OCTOBER 12 - 17, 2020. This year will highlight the importance of a drug-free workplace and encourages workers with alcohol and drug problems to seek help.**

### President's Pen

It is time to start a new year of SCSE events and professional development. As we have all been encumbered with COVID19 restrictions, we are approaching this coming year with optimism and vigor.

But first, I want to THANK Mike Corcoran for the past several years of SCSE service! Your efforts allowed this group to move forward and offer excellent learning opportunities. We will be grateful continuing to receive your insight and advice as the future unfolds.

What is in store for SCSE during the upcoming year? Unfortunately, no good food. However, we are continuing to push forward and will bring the monthly educational presentations to our group in webinar format.

Knowledge through Fraternalism ~ Organized 1935

We have secured excellent speakers and hope you will be joining us.

In addition, the long awaited and updated SCSE website is in development and anticipating a release within the next couple months.

I look forward to working with everyone in our new virtual environment! **Robert Humphrey, President**
